

## **Chinese Gui Zhou province deploys Emza's WiseEye® intelligent video security camera, for protection of the new Supreme Court located at the province capital Gui Yang city,**

Kefar Sava, Israel, May 25, 2011.-- Emza Visual Sense and Insease technology, today announced that new security project contract was signed with the Gui Zhou province to deploy Emza's first of its kind intelligent security IP camera to protect the Gui Zhou province Supreme Court facility.

Insease technology, Emza's partner in China, wins the contract to deliver a complete end-to-end, 24x7, video based, intelligent security solution. The contract includes design, installation and complete integration of Emza's solution over IP networks.

"Intelligent video for security is increasingly being adopted by Chinese government organizations as the most efficient way to protect their facilities, we win this project due to WiseEye® superior performance" says Mr Tong the General Manager of Insease Technology. "Emza's WiseEye® Plug n' Play products provides a scalable and cost-effective solution which requires no special expertise for maintenance, operation, configuration and setup."

Due to the exceptional performance and reliability of the **WiseEye®** products, the province security officials, reduces security operational costs of the physical security including reducing number of guards while keeping the highest level of security required protecting such important government institute.

"We are extremely pleased with the fact that additional official Chinese government organization chooses Emza's intelligent IP video camera," said Yossi Givati, Co-Founder and VP of Products Marketing at Emza Visual sense. "It is added to a long list of satisfied customers around the globes that uses Emza's cutting edge real time threat detection system. Together with the excellent support and service provided by Insease, our Chinese partner, I am sure that Emza will play a leading position in the security market in China", he added.

### ***About Emza Visual Sense***

Emza Visual Sense Ltd. is the designer and manufacturer of the WiseEye®, a first of its kind and the only true stand alone outdoor video analytic sensor in the market. The *WiseEye* was designed to provide real time perimeter and asset protection solution. The WiseEye® is a "Commercial Quality" Intelligent IP video camera that meets the most stringent operational performance standards, where real time damage prevention is the key requirement and where minimizing the false alarm rate is mandatory to keep lowest operational costs.
